

I am writing to request that K-Love be kept active and on-air by not letting the FM translator services be forced off the air by LPFM. K-Love is a service to me as a resident of the Flint, Michigan area and is heard on 88.9 FM. It is one of a very few number of Christian radio stations in this area. It provides uplifting music and messages of hope through Jesus Christ in a climate that is often dominated by not so positive messages and music that is not at all inspiring. It is a refreshing change for any listener, be they Christian or not. It is a station that all ages can enjoy. I encourage you to keep its method of transmission protected and let this wonderful station that I have personally come to appreciate and love on the air. Thank you.
